

Environment Policy
thyssenkrupp Airport Solutions

Rev_O, 18/09/2018
AS_S01_EP

The MANAGEMENT BOARD of **thyssenkrupp Airport Solutions** defines the company's environmental policy, for the development of solutions for airport products and airport services based on the following principles:

- ✓ **RESPECT AND AWARENESS** within the company of:
 - Legal requirements and applicable environmental legislation.
 - Any other environmental requirement to which the company subscribes.
- ✓ **A COMMITMENT** towards:
 - Constant improvement of our processes, applying the best available techniques that are both economically and technically viable in order to reduce the environmental impact of our processes, products, and services.
 - Rationalising the use of natural resources and their conservation in our processes.
- ✓ **IDENTIFICATION OF APPROPRIATE OBJECTIVES** in order to improve the environmental performance of our company.
- ✓ **ANALYSIS OF EXISTING RISKS** within the context of our company, in order to achieve the objectives that have been identified, ensuring that they are dealt with in an appropriate manner.
- ✓ **PROMOTION OF:**
 - Environmental awareness amongst our staff, so that they can carry out their work with the maximum positive impact towards the environment.
 - Collaboration with our suppliers, in order to share our commitment towards respecting the environment with them.
- ✓ **ACCOUNTABILITY** from all hierarchical levels in complying with this policy in all of the company's activities, as well as by our suppliers and subcontractors.

The MANAGEMENT BOARD of **thyssenkrupp Airport Solutions** declares its commitment to review and improve this environment policy on a regular basis as part of its Management System Review process, as well as with any change or significant event within the context

of the company, and to ensure that this environment policy is accessible to all interested parties in the company, as well as outside interested stakeholders.
